# C3 Connecting Casegood Components

C3 is a custom modular solution for addressing furniture needs in both the general healthcare and the long term care environments. The approach provides functionality, allows unique solutions to address specific needs, has the flexibility to change as circumstances require; offering integrated wall units in addition to individual freestanding units.

Proudly Made in America

Patent Pending

C3 is a modular system of free-standing units allowing the user to configure the environment to meet specific needs. Using individual units as building blocks, C3 can be configured for resident rooms, nursing stations, and consultation areas.

Resident Room

Units include dressers, cabinets, wardrobes, and desks and are easy to configure with 24" and 36" unit widths and 19", 29", and 36" unit heights allowing adaptability to various spaces.

As environments and needs change, C3 can adapt because it consists of modular, individual units and components. Additionally, collection drawers and doors are interchangeable providing a cost effective solution for a new look for an existing installation.

C3 components provide further customizing and flexibility with back panels. All back panels provide a 4" utility chase for electrical, networking, and plumbing. Enhance room ambience by adding canopies with lighting, shelving, and modular storage. C3's slim design, 2.5" in depth, allows more open area for caregiver and resident by utilizing a smaller room foot print, while still meeting needs.

The Savannah Collection  
Double resident room configuration

Patent Pending

### Building a Wall System

#### 4 Drawer Dresser Base Unit

C3's base units are freestanding furniture units with the capability to become part of a wall system. All required components are built into each unit.

#### 4 Drawer Dresser with Mid Back

Begin customizing by selecting one of the back options complete with utility chase and ledge, taking advantage of space under windows.

#### 4 Drawer Dresser with Full Back

Further design options utilizing a full back. Use as a stand alone unit or build similar units to assemble as a modular wall system.

#### 4 Drawer Dresser with Full Back and Canopy

Finish customizing with canopy and lighting. Enhance wall-systems further with crown moulding.

C3's modular wall unit assembly design includes personal storage, writing area, wardrobe hanging space, and sitting area utilizing a corner in a resident room.

### Flexible Integrated Solutions

The Oak Park Collection

Avante Collection  
Nursing Station

Patent Pending

Flexibility allows modular components to be used in many areas within a facility.
