# PRO BATTERY-POWERED FLOOR LIFTS

**LF500**  
PRO BATTERY POWERED FLOOR LIFT

Premium electronics with LCD Display

Control box and intuitive hand pendant operate high/low and base open/close

Battery charge indicator on hand pendant and LCD Display

**A** LIFTING program is essential in today's healthcare environment. Our population is getting older, heavier, and has more chronic health conditions than ever before. This puts an increasing demand on our caregivers. Using lifts is safer for patients and healthcare personnel.

Product Info

Battery and status alerts display clearly on LCD Display (actual alert image)

Warning alerts display clearly on LCD Display (actual alert image)

## Features:

- Swan neck lifting range of 55.50 inches (140.97 cm)
- Powered high/low and base open/close simplifies operation
- Premium electronics with LCD display. Lift can be operated via the control box or the hand pendant
- ★ See Chart on page 8 for Specifications

Swan neck enables lifting resident from the floor

Includes charging caddy, charger, and spare battery

Optional digital scale (DSC270)

# BATTERY-POWERED FLOOR LIFTS

Ergonomic foot pedal leg opening frees up hands

Storage bag included

Charger break-away cord

Optional digital scale (DSC270)

**LUMEX**® lifts are designed to provide safer and more secure transfers of patients by caregivers. Lumex lifts are very sturdy and easy to use. All Lumex floor lifts have a manual lowering mechanism.

## Features:

- Heavy gauge steel construction with white powder coated finish
  - Rubber-coated low base legs protect furniture and walls
  - Six point spreader bar with 360° rotation accommodates 2, 4, or 6-point slings
  - Large, easy to grip handles for easy maneuverability
  - Unique, ergonomic foot pedal leg opening
  - 24V DC motor allows quiet smooth operation to lift up to 600 lb (272.16 kg) EVENLY DISTRIBUTED
- ★ See Chart on page 8 for Specifications

Control box and intuitive hand pendant operate high/low and base open/close

**SIT-TO-STAND** lifts are designed for patients who have difficulty standing up on their own from a seated position. Patients must be able to actively participate in the lifting process and be able to partially support their weight.

## Features:

- Heavy gauge steel construction with white powder-coated finish and rubber-coated low base legs protect furniture and walls
- Sling hooks on spreader bar facilitate easy placement of sling shoulder straps
- Premium electronics with LCD display. Lift can be operated via the control box or the hand pendant
- Large, easy to grip handles for easy maneuverability using 4" locking and 3" non-locking casters
- Powered high/low and base open/close simplifies operation (ST500M only)
- Intuitive foot pedal leg opening mechanism frees up hands for manual base option (ST500M only)
- Adjustable knee pad unit
- Quick-release removable foot platform for gait training
- Ergonomic hand pendant with hook
- Emergency lowering device on actuator shaft can be used in case of power failure
- Warning beep and visual indicator on control box for low battery charge (24V DC motor)
- Spare battery pack included
- Designed to meet the requirements of HCPCS Code E0635

★ See Chart on page 8 for Specifications

# NON-POWERED FLOOR LIFTS

**G**RAHAM-FIELD offers an economic, and easy transfer with its durable steel built lifts with high-performance hydraulic mechanics to lift and lower patients as needed.

### Features:

- Heavy gauge steel construction
  - Six point spreader bar with 360° rotation accommodates 2, 4, or 6-point slings
  - Manual foot pedal, adjustable base (LF1031FP model)
  - Ergonomic placement of hydraulic pump handle facilitates ease of use
  - Disassembles for easy storage
  - Optional digital scale available
- ★ See Chart on page 8 for Specifications

HYDRAULIC LIFT WITH FOOT PEDAL

**LF1031**  
HYDRAULIC LIFT

# SELF POWERED STAND ASSIST LIFT

**T**RANSPORT FUNCTIONS of all kinds are quick, convenient, and require minimal caregiver assistance. Designed for residents who have the strength and stability to lift and support themselves, this transport assistance unit keeps the resident actively engaged in the transport process. A padded split seat swings out to allow loading or unloading, then swings back to form a comfortable and stable transport seat. A convenient toileting alternative to a wheelchair.

User grasps the middle bar and uses their own strength to pull themselves up into position.

### Features:

- Padded dual knee pads and seat pads
  - Stable base with locking rear casters
  - Fits easily through narrow doorways
- ★ See Chart on page 8 for Specifications

# FULL BODY SLINGS

**FM110**  
FULL BODY MESH SLING

**USED FOR RESIDENTS** who are totally or partially dependent, non-weight bearing, bariatric, or for those who have limited head control. Full Body slings are the easiest sling to use while transferring a resident from a supine position from a bed to a chair, or wheelchair, or toilet, — or from the floor to a bed. Mesh slings are often left under the resident between lifts. Solid fabric slings should not be left under the resident for extended periods of time, as the fabric can retain body heat.

**F117**  
FULL BODY SOLID FABRIC SLING

**FM110**  
FULL BODY MESH SLING

**FM140**  
FULL BODY MESH SLING

**FMC115<sup>2</sup>**  
FULL BODY MESH SLING  
WITH COMMODE OPENING

**FMC141**  
FULL BODY MESH SLING  
WITH COMMODE OPENING

## Features:

- Available in solid fabric, mesh, or mesh with commode opening
  - Four connection points and accommodates 2, 4, or 6-point spreader bars
  - Offers total head, neck, and thigh support
  - Mesh slings best for bathing
- ★ See Chart on page 8 for Specifications and Info Link

# UNIVERSAL SLINGS

**A**LSO called divided leg slings, these are the easiest sling to use while transferring a resident from a seated position. Designed for residents that are totally or partially dependent, non-weight bearing, or bariatric. Those who have limited head control should use a universal sling with head support.

These can also be used for lifting from a supine position, making them suitable for most lifting situations. They are an easy-to-fit general purpose sling designed for the majority of users. They can be used for transfers to and/or from a bed, chair, wheelchair, toilet, or the floor.

### Features:

- Available in solid fabric or mesh, with or without head support
- Large opening accommodates toileting on all universal slings
- Has four or six connection points and accommodates 2, 4, or 6-point spreader bars
- Offers total head, neck, and thigh support
- Mesh slings best for bathing
- ★ See Chart on page 8 for Specifications and Info Link

# TOILETING SLINGS

**D**ESIGNED to facilitate the toileting procedure and allowing the lowering of clothing. The sling is well padded under the arms and in the lumbar area for maximum comfort. They can be used for transfers to and/or from a chair, wheelchair, toilet or sitting on a bed. Toileting slings *must only* be used when transferring a resident to and from a seated position.

### Features:

- Four connection points
- Can be used with a Sit-to-Stand lift or accommodates 2, 4, or 6-point spreader bars
- Included hook and loop belt with separate buckle strap hold the sling securely in place
- ★ See Chart on page 8 for Specifications and Info Link

**TP33x**  
DELUXE PADDED  
TOILET SLING

# DELUXE SIT-TO-STAND PADDED SLINGS

**S**HOULD solely be used with Sit-to-Stand lifts to facilitate seated transfers. They can be used for transfers to and/or from a chair, wheelchair, toilet or *sitting* on a bed. Only suitable for residents who have a greater degree of weight bearing ability. The sling is well padded under the arms and in the lumbar area for maximum comfort.

Sit-to-Stand slings can also be used in conjunction with an optional Buttock Strap and/or an optional Knee / Calf Strap for extra security and support.

### Features:

- Two connection points
- Only use with a Sit-to-Stand lift
- Will accommodate toileting procedures
- Included textured belt with separate buckle strap hold the sling securely in place
- ★ See Chart on page 8 for Specifications and Info Link
